

AERA-Shell-CA	Effective 10/7/2011, SEI or one of its affiliates obtained ownership of the AERA dataset which comprises approximately 8,000 miles of 2D seismic data located onshore in California originally shot by Shell.
AG Hill	Effective 12/10/2010, SEI or one of its affiliates obtained ownership of approximately 406 miles of data located in the lower 48 states, specifically counties in IL, IN, MI, and TX, from A.G Hill.
AMI Tuscaloosa	Effective June 11, 1992, SEI or one of its affiliates obtained ownership of approximately 1,394.364 miles of Fina "AMI" data located in the Tuscaloosa Trend in Louisiana.
ARCO-Vastar	Effective 7/25/2006, SEI or one of its affiliates obtained ownership of the ARCO-Vastar 2D database located onshore in the lower 48 states. SEI did not get any Alaska data or any data located offshore except the data that falls in the transition zone boundaries (State Waters not Federal Waters). SEI did not get any data recorded to analog media or any data recorded to 21 track media.
ATAPCO	Effective 1/21/2019, SEI or one of its affiliates obtained ownership of approximately 1,400 miles of 2D data located in the lower 48 states known as the ATAPCO dataset.
Acoustic Exploration Inc	Effective 10/23/1996, SEI or one of its affiliates obtained ownership of approximately 138 miles of data located in various Texas counties from Acoustic Exploration, Inc.
Alabama Pickens	The Alabama Pickens data is comprised of approximately 112.607 miles of data located in Greene, Pickens, and Tuscaloosa Counties, Alabama.
Allante Operating	Effective February 25, 1997, SEI or one of its affiliates obtained ownership of approximately 2.03 miles of data located in Kiowa County, Colorado from Allante Operating Company.
Alliance Geophysical Co	Effective 2/5/2002, SEI or one of its affiliates obtained ownership of approximately 20 miles of seismic data (line AGC-6) located in Dimmit, La Salle and Zavala Counties, Texas, from Alliance Geophysical.
Alliance Research Co	Effective 1/10/1997, SEI or one of its affiliates obtained ownership of the Alvin, Francitas, Oilton and Queen City Recon surveys from Alliance Research, which comprises approximately 800.75 miles of data located in various Texas counties.
Amerada Hess	Effective 4/19/2002, SEI or one of its affiliates obtained ownership of the Amerada Hess dataset which comprises approximately 17,374 miles of data located in the lower 48 states. SEI did not obtain ownership of any data located Oklahoma or California.
Ameriquet	Effective 10/28/1996, SEI or one of its affiliates obtained ownership of approximately 573 miles of data in various Texas Counties and Louisiana Parishes known as the Ameriquet data.
Amoco	Effective 10/1/1998 SEI or one of its affiliates acquired Amoco Production Company's domestic seismic database which includes: all data located in the lower 48 states (except for data located in the Permian Basin), all Pacific coast and offshore data, all Atlantic coast and offshore data, all Alaska and offshore data, and the data in the transition zone and state waters of the Gulf of Mexico. SEI did NOT obtain ownership of the data located offshore in the Gulf of Mexico Federal Waters.
Anschutz	Effective 4/28/2017, SEI or one of its affiliates obtained ownership of approximately 2,336.702 miles from Anschutz Exploration as follows: i) 397.837 located in Oklahoma; ii) 1,462.208 miles located in Arizona; and iii) 476.657 miles located in the Northeast.
Armstrong Oil & Gas	Effective 8/8/2012, SEI or one of its affiliates obtained ownership of approximately 150.004 miles of data located in Hardeman County, Texas from Armstrong Oil & Gas.
Bonanza Petroleum	Effective 6/24/2010, SEI or one of its affiliates obtained ownership of approximately 145 miles of data located in Sabine and Wilson Counties, Texas and Sabine Parish, Louisiana, from Ingram Brothers Joint Venture.
Bramat	Effective 11/17/1994, SEI or one of its affiliates obtained ownership of the Bramat dataset which comprises approximately 1,250 miles of data recorded in various Texas and Oklahoma counties and Louisiana Parishes.
Burlington	Effective 12/2/2003, SEI or one of its affiliates obtained ownership of the Burlington dataset which comprises approximately 15,500 miles located in the lower 48 states. SEI did not obtain ownership of the data located in West Texas/Permian Basin data, or the northern counties in Alabama.

Burnett Oil	Effective 3/23/2012, SEI or one of its affiliates obtained ownership of approximately 33 linear miles and 44 square miles, known as Turkey Track 3D, in Hutchinson County, Texas from Burnett Oil.
CGG	Effective 4/10/2003, SEI or one of its affiliates obtained ownership of approximately 18,898 miles of 2D data in the Gulf and Pacific Coast areas, as well as approximately 1,196.127 square miles of 3D data from CGG.
Chapparral	Effective 7/23/2001, SEI or one of its affiliates obtained ownership of approximately 615 miles of data located in Texas and New Mexico and referred to as the Chapparral dataset.
Chevron	Effective 3/1/2002, SEI or one of its affiliates obtained ownership of Chevron's 2D seismic data which is comprised of the onshore data within the lower 48 states and data located offshore in state waters, and specifically excludes data located in the state of California and in the Permian Basin.
Criterion	Effective September 26, 1988 SEI or one of its affiliates obtained ownership of approximately 3,103 miles of data located in various counties in Alabama, Louisiana and Mississippi from Criterion Exploration. The 50% ownership interest in Surf Zone Phase X that SEI obtained from Criterion, was eventually traded to TGS in May 1997 as part of the TGS data purchase, since they owned the remaining 50%.
Damson & Dorchester	Effective 3/28/1996, SEI or one of its affiliates obtained ownership of the Damson & Dorchester dataset which comprises approximately 32 miles of 2D data in Colorado and Lavaca Counties, Texas.
DataCom	Effective 3/6/2003, SEI or one of its affiliates obtained ownership of the DataCom dataset which is comprised of approximately 6,400 miles of 2D data located in various counties in Arkansas, California, Colorado, Illinois, Kansas, Louisiana, Mississippi, Nevada, New Mexico, Oklahoma, Texas & Utah from Central Exploration Company Inc.
Delta Petroleum	Effective 3/29/2012, SEI or one of its affiliates obtained ownership of approximately 180.15 miles of 2D data located in Montana from Delta Petroleum Corporation.
Devon	Effective 4/25/2016 SEI or one of its affiliates acquired 100% of Devon's ownership to certain 2D & 3D Data.
Dibler	Effective April 15, 1988, SEI or one of its affiliates obtained ownership of approximately 661 miles of data in the Wilcox Fault Zone, located in Live Oak, McMullen, La Salle, Duval, Webb, Jim Hogg, Starr, Zapata, Victoria and Lavaca Counties, Texas from Dibler Seismic Service.
Dixie	Effective March 21, 1983, SEI or one of its affiliates obtained ownership of approximately three lines in the SE Mississippi Smackover/Hosston Survey totaling 148.37 miles of 2D data (lines: P1-L1, P1-L2, P1-L3) from Dixie Exploration, Inc.
E. Texas (Neotech)	Effective 10/28/1996, SEI or one of its affiliates obtained ownership of approximately 133 miles of data in various Texas counties from Worldwide Seismic Ventures.
Echo SeisMatch	Effective 7/12/2000, SEI or one of its affiliates obtained ownership of the 2D and 3D Data owned by Echo Geophysical. The 2D data consisted of approximately 31,500 miles of SeisMatch Data.
Edward Mike Davis	Effective 3/6/2014, SEI or one of its affiliates obtained ownership of approximately 11.60 miles located in Washington County, Colorado from Edward Mike Davis.
Energen	Effective 6/15/2018, SEI or one of its affiliates obtained ownership of approximately 7,817 miles of 2D data from Energen Resources Corporation.
Enserch/Sohio	Effective 10/1/1998, SEI or one of its affiliates obtained ownership of the Enserch 2D dataset which comprises approximately 50,000 miles of 2D data. This purchase excluded the Oklahoma data, which SEI subsequently purchased from Newfield. See the Newfield Dataset for details.
Exxon	Effective December 17, 2010 SEI or one of its affiliates obtained ownership of approximately 44,000 miles of 2D seismic data located in Texas from ExxonMobil Exploration Company.
Fina/Tenneco/HOM	Effective January 31, 2000 SEI or one of its affiliates obtained ownership of the Fina dataset which comprises approximately 28,500 miles of 2D seismic data located primarily in Texas and Louisiana.
First Seismic	Effective February 26, 2001 SEI or one of its affiliates obtained ownership of approximately 7,600 miles of 2D seismic data located onshore in the lower 48 states from First Seismic Corporation.

Footnote	Effective February 17, 2012 SEI or one of its affiliates obtained ownership of approximately 360 miles of 2D seismic data located in Michigan and Indiana from J.A.F. Oil and Gas Company.
Forney-McCombs	Effective February 1, 2012, SEI or one of its affiliates obtained ownership of the Charline and League City 3D Surveys as well as approximately 500 miles of 2D data located in Arkansas and along the Texas Gulf Coast from McCombs Energy.
GCA	Effective May 10, 2004, SEI or one of its affiliates obtained ownership of approximately 28,800 miles of 2D seismic data recorded in the state and offshore waters of Alaska on behalf of the Geophysical Corporation of Alaska from Triple J Data Partnership.
GDI	Effective January 6, 1999, SEI or one of its affiliates obtained ownership of approximately 6,250 miles of seismic data located in South Texas and the Rockies from GDI, Inc.
Geco-Prakla	Effective May 14, 1998, SEI or one of its affiliates obtained ownership of the SSC dataset which comprises approximately 850 miles located in Texas and Louisiana from Geco-Prakla.
GeoCenter	Effective August 16, 1995, SEI or one of its affiliates obtained ownership of approximately 250 miles of data located in Texas from Geocenter, Inc.
GeoData	Effective February 1, 2003, SEI or one of its affiliates obtained ownership of approximately 7,300 miles of 2D data located in Florida, Alabama, Texas, Nevada, Oregon, Wyoming, Kansas, New York, Ohio and Oklahoma from GeoData Corporation. We did not obtain ownership of the data located in Montana.
GeoQuest Data Services, Inc	Effective August 22, 1997, SEI or one of its affiliates obtained ownership of approximately 2,700 miles of data in various Kansas & Texas counties from GeoQuest Data Services.
Geokinetics-PGS	Effective March 15, 2012, SEI or one of its affiliates obtained ownership of approximately 644 linear miles recorded in Alaska and onshore and offshore in the Gulf of Mexico from Geokinetics, Inc.
Geosearch - Robinson	Effective January 16, 2015, SEI or one of its affiliates obtained ownership of approximately 3,471 linear miles of data commonly referred to as the Geosearch data, located in Texas, New Mexico and Oklahoma, from Rodney Robinson.
Goldking Production Company	Effective July 15, 1998, SEI or one of its affiliates obtained ownership of approximately 513.47 miles of data located in Texas, Louisiana and Arkansas, known as the Goldking data, from Panoco, Inc.
Grant	Effective August 10, 1993, SEI or one of its affiliates obtained ownership of approximately 456 miles of 2D data in Texas and Louisiana from Grant Tensor Geophysical Corporation.
Heritage Resources	Effective July 19, 2003, SEI or one of its affiliates obtained ownership of approximately 80 linear miles of data located in Winker, Loving, Dawson, Garza, Martin and Midland Counties, Texas from Heritage Resources.
Herman Sieck	Effective April 3, 2002, SEI or one of its affiliates obtained ownership of approximately 460 miles of data, commonly referred to as the Herman Sieck data, located in multiple Texas counties.
Horizon	Effective November 19, 2004, SEI or one of its affiliates obtained ownership of approximately 1,100 miles of data from various counties in Mississippi, Louisiana, New Mexico & Texas from Horizon Exploration Company.
Howard Energy	Effective June 5, 2015, SEI or one of its affiliates obtained ownership of approximately 2,672 linear miles of data, commonly referred to as the Howard Energy data, located in the state of Michigan, from Michael J. McGrath.
Hunt Petroleum Corporation	Effective June 15, 2001, SEI or one of its affiliates obtained ownership of approximately 5,792 miles of 2D data located in the lower 48 states from Hunt Petroleum Corporation.
Indexgeo & Associates	Effective June 19, 1990, SEI or one of its affiliates obtained ownership of approximately 158 miles of data located along the Texas Gulf Coast, commonly referred to as the "Trans Surf" data from Indexgeo & Associates, Inc.
Inland Geophysical Company	Effective September 29, 1997, SEI or one of its affiliates obtained ownership of approximately 971.613 miles of data in Texas and Arkansas from Inland Geophysical Company.
J. M. Huber	Effective March 11, 2011, SEI or one of its affiliates obtained ownership of approximately 5,000 miles of 2D data located in the lower 48 states from J.M. Huber Corporation.

JDK Incorporated	Effective September 10, 1996, SEI or one of its affiliates obtained ownership of approximately 325 miles of data located in located in Brazoria, Matagorda and Live Oak Counties, Texas from JDK Incorporated.
JEBCO	Effective May 23, 2006, SEI or one of its affiliates obtained ownership of approximately 45,000 miles of 2D data located offshore in the Gulf of Mexico from JEBCO Seismic.
Jaecon	Effective June 10, 1996, SEI or one of its affiliates obtained ownership of approximately 309.70 miles of data in Texas and Montana from Jaecon Corporation.
Jaecon/Calaway STX	Effective July 15, 1996, SEI or one of its affiliates obtained ownership of approximately 285.85 miles of data located in various South East Texas Counties from Jaecon Corporation and James C. Calaway.
Jura-Search	Effective December 10, 2007, SEI or one of its affiliates obtained ownership of approximately 40 miles of 2D data located in Hancock County, Mississippi from Jura-Search, Inc.
Kaneb Exploration	Effective November 12, 2012, SEI or one of its affiliates obtained ownership of approximately 154.95 linear miles of 2D data located in Oklahoma and 135.3 linear miles of data in Kansas, common referred to as the Kaneb Exploration data from Carol E. Long.
Kendrick-Kary	Effective March 1, 2004, SEI or one of its affiliates obtained ownership of approximately 550 miles of West Mississippi Data from Kendrick Geophysical Exchange, Inc. and Texas Geophysical Co.
Kilroy (KCOT)	Effective April 1, 1998, SEI or one of its affiliates obtained ownership of approximately 1,250 miles of date located in the lower 48 states from Kilroy Company of Texas, Inc.
Laredo Recon	Effective July 20, 1993, SEI or one of its affiliates obtained ownership of approximately 4,105 miles of 2D seismic data, commonly referred to as the Laredo Recon data set, located in South Texas counties from Data, Inc, formerly known as Georex.
Lewis Co	Effective October 15, 2003, SEI or one of its affiliates obtained ownership of approximately 26 miles of data recorded in Galveston & Brazoria, Texas from Lewis Company.
Mariner Energy	Effective January 4, 2012, SEI or one of its affiliates obtained ownership of approximately 219 miles of 2D data located in Alabama, Texas and Jefferson Davis Parish, Louisiana, formerly owned by Edge Petroleum and Mariner Energy.
Marshall R. Young	Effective April 4, 2011, SEI or one of its affiliates obtained ownership of approximately 1,500 miles of 2D data located primarily in West Texas and New Mexico from Marshall R. Young Oil Co.
Maxus-Diamond Shamrock	Effective December 27, 2004, SEI or one of its affiliates obtained ownership of approximately 15,000 miles of 2D data located in the lower 48 states and commonly referred to as either the Maxus or Diamond Shamrock data, and the Madisonville 3D survey located in Madison and Grimes Counties, Texas from Global Geophysical Experts Inc.
Metano/Newfield	Effective February 12, 2008, SEI or one of its affiliates obtained ownership of approximately 52.5 miles of data comprised of 7 swath lines located in Jim Hogg County, Texas from Newfield Exploration Company and Metano Energy, LP.
Mich. Oil & Gas	Effective August 15, 2003, SEI or one of its affiliates obtained ownership of approximately 1,200 miles of data, commonly referred to as the Michigan Oil data, located in the state of Michigan, from Millennium Seismic, Inc.
Mobil-LA	Effective January 9, 1997, SEI or one of its affiliates obtained ownership of approximately 12,000 miles of data located in the state of Louisiana from Mobil Oil Exploration & Producing Southeast Inc.
Mobil-OK	Effective August 15, 2003, SEI or one of its affiliates obtained ownership of approximately 2,800 miles of data, commonly referred to as the Mobil OK data, located in the state of Oklahoma, from Millennium Seismic, Inc.
Mosbacher	SEI or one of its affiliates obtained ownership of certain data from Mosbacher Energy Company and others pursuant to two separate agreements. Under the first agreement, effective June 6, 1989, SEI obtained ownership of approximately 238.8961 miles of data located in Montana, North Dakota and Wyoming. Under the second agreement, effective October 11, 1990, SEI obtained ownership of approximately 180.8063 miles located in Arkansas, Mississippi, Texas and New Mexico.

Nestor	Effective November 24, 1990, SEI or one of its affiliates obtained ownership of approximately 15.7 miles of data located in Terrebonne Parish, Louisiana from Nestor Petroleum Company.
Newark Energy	Effective July 12, 2011, SEI or one of its affiliates obtained ownership of approximately 187.2 miles of 2D data located in Ohio from Newark Energy LLC.
Newfield	Effective February 10, 2017, SEI or one of its affiliates obtained ownership of the East Knox 3D Survey and approximately 7,300 miles of 2D data located in Oklahoma which was previously owned by Enserch from Newfield Exploration Company.
Norstar Petroleum	Effective August 31, 2012, SEI or one of its affiliates obtained ownership of approximately 317.05 miles located in Crawford, Hancock, Sandusky, Seneca, and Wyandot Counties, Ohio, from Norstar Petroleum, Inc.
Nuevo-TXP	Effective February 1, 2001, SEI or one of its affiliates obtained ownership of approximately 3,500 miles of 2D data located in the lower 48 states from Nuevo Energy Company.
Optimal Geophysical Corp	Effective May 31, 1990, SEI or one of its affiliates obtained ownership of approximately 657 miles of 2D data located in Texas from Optimal Geophysical Corp.
Orbit	Effective October 15, 2003, SEI or one of its affiliates obtained ownership of approximately 200 miles located in Texas, North Dakota and Montana from DAR Oil & Gas Inc.
Oryx-Sun	Effective April 9, 1997, SEI or one of its affiliates obtained ownership of the Oryx-Sun 2D database which comprises approximately 76,000 miles located in the lower 48 states. All single-fold data, Alaska data and 3D data were excluded from this transaction.
Patrick Petroleum (Goodrich)	Effective June 1, 2007, SEI or one of its affiliates obtained ownership of the 2D data previously owned by Patrick Petroleum, comprising approximately 379 miles located in North Dakota from Goodrich Petroleum Company.
Penn Virginia Oil and Gas Corporation	Effective February 20, 2013, SEI or one of its affiliates obtained ownership of approximately 122.272 miles of data located in Gonzales County, Texas from Penn Virginia Oil & Gas, L.P.
Pennington (PSE)	Effective April 19, 1996, SEI or one of its affiliates obtained ownership of approximately 1,967 miles of data in Texas, Louisiana, Mississippi, Oklahoma, and Wyoming from Pennington Seismic Exchange.
PetroScience	Effective March 28, 1996, SEI or one of its affiliates obtained ownership of approximately 1,600 miles of 2D data commonly referred to as the PetroScience data, located in Texas and Montana from Kaskl, Inc.
Petroleum Corporation of Delaware	Effective November 27, 2012, SEI or one of its affiliates obtained ownership of approximately 242 linear miles located in Mississippi from Phillip Steven Ahlberg.
Phillips Petroleum Co	Effective November 19, 1990, SEI or one of its affiliates obtained the right to exclusively market and license certain PPCO proprietary 2D seismic data comprising approximately 850 linear miles located in the transition zone areas of Louisiana and Texas.
Prospex	Effective September 27, 2013, SEI or one of its affiliates obtained ownership of approximately 347.44 miles of 2D data located in North Dakota from Prospex Inc.
Pulse	Effective February 1, 2004, SEI or one of its affiliates obtained ownership of approximately 1,259 linear miles of 2D data located in various counties in Utah, Wyoming, Colorado, Montana, and Nebraska from Derby Explorations, Inc.
Richardson Seismic Services	Effective August 1, 1997, SEI or one of its affiliates obtained ownership of approximately 25,000 miles of 2D data from Petroleum Information/Dwights, L.L.C., commonly referred to as the Richardson Data, which includes the following datasets: i) Cenergy Exploration; ii) Conquest Exploration; iii) Kirby; iv) Geo-Search; v) RSS; vi) Seis Pros, Inc. ("SPI"); and vii) Seismic Reflections, Inc. ("SRI").
Rogers Expl	Effective October 17, 1996, SEI or one of its affiliates obtained ownership of approximately 1,140 miles of seismic data in various counties of Louisiana and Texas, previously owned by Rogers Exploration, from Geophysical Service, Inc.
SAI	Effective February 9 1996, SEI or one of its affiliates obtained ownership of approximately 35 miles of data located in Jefferson County, Texas from Seismic Assistants, Inc.
SSC	Effective May 14, 1998, SEI or one of its affiliates obtained ownership of approximately 6,161 miles of data located in the lower 48 states from Geko-Prakla.

Saga	Effective February 4, 2002, SEI or one of its affiliates obtained ownership of approximately 788 miles of onshore data in Southern Mississippi and Southern Alabama previously owned by Saga Petroleum, from William K. Rogers.
San Leon Energy	Effective November 29, 2011, SEI or one of its affiliates obtained ownership of approximately 145.2 miles of 2D data located in Ohio from San Leon Energy USA, Inc..
Sanchez	Effective September 5, 2005, SEI or one of its affiliates obtained ownership of approximately 1,444 miles of 2D data located in various Texas counties and Cameron Parish, Louisiana from Sanchez Oil & Gas Corporation.
Sandefur Oil	Effective July 7, 2011, SEI or one of its affiliates obtained ownership of approximately 550 miles of 2D seismic data located in Alabama, Mississippi, Louisiana and Texas from Sandefur Oil & Gas, Inc.
Seisbanks	Effective October 16, 1998, SEI or one of its affiliates obtained ownership of approximately 17 miles of 2D data located in South Texas, and approximately 29 square miles of 3D data located in Winkler County, Texas from Seisbanks, Inc.
Seismic Data Search	Effective April 16, 2003, SEI or one of its affiliates obtained ownership of approximately 341 miles of data in various Texas counties from Seismic Data Search.
Seismic Experts	Effective February 27, 2002, SEI or one of its affiliates obtained ownership of approximately 1,000 miles of data in Southwest Mississippi and various Louisiana Parishes from Seismic Experts, Inc.
Seismic Ventures Inc.	Effective February 28, 2009, SEI or one of its affiliates obtained ownership of approximately 3,532 miles of data in the lower 48 states from Seismic Ventures, Inc. Effective April 2, 2009, the remaining ownership was obtained by Tyrrell Data Services, Inc.
Shell	Effective July 1, 1998, SEI or one of its affiliates obtained ownership of approximately 181,000 miles of 2D data located in the lower 48 states, excluding data located in Alaska, California and the Permian Basin, from Shell Western E&P, Inc.
Smokey	Effective March 31, 2009, SEI or one of its affiliates obtained ownership of approximately 1,283.954 miles of 2D data is located in Texas, Oklahoma and Louisiana from Data*Point Seismic Services. Included in this purchase is all data proprietary to, or jointly owned by, Data Point, including: i) data that is jointly owned with and/or brokered by, Seismic Ventures, Inc.; ii) data acquired for Pogo Producing Company; and iii) data acquired for Wainoco Oil Corporation.
SouthWest Seismic	Effective October 31, 1996, SEI or one of its affiliates obtained ownership of approximately 64.40 miles of data located in Leon & Houston County, Texas (aka Leon & Houston Co. Spec Shoot) from Oslin Exploration Company.
Speck Pharr	Effective July 24, 2014, SEI or one of its affiliates obtained ownership of approximately 61.7 linear miles located in Calcasieu Parish, Louisiana and Orange and Newton Counties, Texas from Charles Pharr & Tracey Sibold.
Statex	Effective April 1, 2005, SEI or one of its affiliates obtained ownership of approximately 500 miles of data located in the lower 48 states from Statex Petroleum.
Steller	Effective February 3, 2017, SEI or one of its affiliates obtained ownership of approximately 5.2 miles of data located in Baylor County, Texas from Steller Energy.
Summit Echo 2D	Effective June 1, 2013, SEI or one of its affiliates obtained ownership of approximately 8,344.64 miles of onshore 2D seismic data in various states from Echo Geophysical Corporation.
TGS-NOPEC	Effective May 20, 1997, SEI or one of its affiliates obtained ownership of approximately 2,748 miles of 2D data located in Texas and Louisiana from TGS-NOPEC Geophysical.
Target Geophysical	SEI or one of its affiliates obtained ownership of approximately 1,166.18 miles of 2D data, commonly referred to as the Target Geophysical dataset, located in various counties in Colorado, Utah and North Dakota from Seismic Management Group and Mike Pentilla dba Target Surveys.
Texaco	Effective March 1, 2002, SEI or one of its affiliates obtained ownership of approximately 224,000 miles of data located in the lower 48 states excluding data located in California and the Permian Basin from Chevron USA, Inc. and Texaco Inc.
Tyrrell Data Services	Effective April 2, 2009, SEI or one of its affiliates obtained: i) the joint ownership of approximately 3,532 miles of data located in the lower 48 states; and ii) approximately 400 miles of 100% owned 2D data located in various counties in Texas, Louisiana, and Kansas from Tyrrell Data Services, Inc.

Unocal	Effective March 22, 2000, SEI or one of its affiliates obtained ownership of approximately 30,000 miles of data located in the lower 48 states, onshore and in the state waters from Union Oil Company of California, dba Spirit Energy 76. The sale excluded data located in California and Alaska as well as certain data transferred with property and lease sales in Oklahoma and the Permian Basin.
Wayne Co	Effective February 9 1996, SEI or one of its affiliates obtained ownership of approximately 60.8 miles of data located in Wayne County, MS from Seismic Assistants, Inc.
Weems	Effective March 12, 2010, SEI or one of its affiliates obtained ownership of approximately 600 miles of data located in the lower 48 states from Weems Geophysical, Inc..
Western Geophysical	Effective December 5, 1995, SEI or one of its affiliates obtained ownership of approximately 70,000 miles of data located in the lower 48 states from Western Atlas International, Inc. In addition to the 2D shot by Western, this sale included the Haliburton, GSI and Petty Ray datasets.
Westland	Effective February 2, 1999, SEI or one of its affiliates obtained ownership of approximately 420 miles of data located onshore and offshore in Texas & Louisiana from Westland Oil Development Corporation.
Williams Production	Effective December 5, 2006, SEI or one of its affiliates obtained ownership of approximately 4,000 miles of data located in the lower 48 states formerly owned by Williams Production Company, from Echo Geophysical Corporation.
Willisco	Effective January 2, 2001, SEI or one of its affiliates obtained ownership of approximately 25,000 miles of data located in Texas from Willisco, Inc. The majority of this data is commonly known as the Mobil-TX dataset.
XMARK MS	Effective July 22, 2014, SEI or one of its affiliates obtained ownership of approximately 80 miles of data located in Mississippi from Richard Nethers.
XMARK OK	Effective November 14, 2013, SEI or one of its affiliates obtained ownership of approximately 555.24 linear miles of data located in Atoka, Carter, Coal, Hughes, Jefferson, Love, Marshall, Pittsburgh, and Pontotoc Counties, Oklahoma from Richard Nethers.
